SKILLS

- HTML 5
- CSS 3
- JavaScript
- Tailwind CSS
- Manual Testing
- API Testing using POSTMAN

EXPERIENCE

Intern at Aloyt - The Technology Company 

Feb 2024 - April 2024

Role - Frontend Developer

virtual

- Completed a virtual internship project involving the development of a responsive food delivery website using Nicepage
- Designed an intuitive user interface enabling users to browse menus, place orders, and track deliveries seamlessly
- Utilized Nicepage's design tools to create a visually appealing and user-friendly experience.
- Integrated essential functionalities including order management, payment processing, and real-time tracking.

PROJECTS

AXO - Virtual Voice Assistant  | JavaScript, HTML and CSS

- Developed AXO, a feature-rich virtual voice assistant, utilizing HTML, CSS, and JavaScript to enhance user interaction through voice commands.
- Implemented functionalities for AXO, including providing information, setting reminders, and navigating the web to offer a comprehensive user experience.
- Designed a user-friendly interface that ensures seamless voice recognition and real-time response capabilities for efficient task management.
- Integrated advanced voice processing technologies to deliver accurate and responsive interactions, significantly improving user engagement.

Personal Portfolio  | JavaScript, HTML and CSS

- Developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript, ensuring optimal performance and layout across various devices (mobile, tablet, desktop).
- Implemented clean and intuitive UI/UX design, allowing easy navigation through different sections like About, Projects, and Contact with smooth transitions and animations.
- Integrated responsive grid and flexbox layouts to adjust the structure dynamically based on screen size, ensuring a seamless experience for users.
- Incorporated interactive elements using JavaScript for enhanced user engagement, including a hamburger menu for mobile view and project filtering functionalities.
